

WE PUT ON A DIET
THE LIFT & SLIDE!

S-LINE

New carriages for sashes with minimal profiles up to 74 mm

SASHES WITH MINIMAL PROFILES UP TO 74 mm

It is possible to realise the lower transom and the sash perimeter with a section up to 74 mm: less visible frame means maximum space to light (glazing surface: +5%).

CUSTOMISE THE LOADING CAPACITY ACCORDING TO YOUR NEEDS

S-Line offers a standard loading capacity up to 240 kg with two reduced carriages. With two additional carriages the capacity reaches 340 kg.

MAXIMUM COMFORT

Optional lock with gas spring for a fluid movement of heavy sashes up to 200 kg.

EASY TO REALISE

The S-Line carriages can be used with AGB locks present in the market.

Standard lock

Lock with gas spring:
fluid opening of heavy sashes

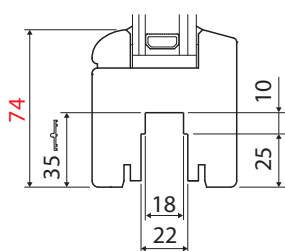

The reduced S-Line carriages allow to realise sashes with minimal profile up to 74 mm

Dedicated anti-derailed adapter

Dedicated rod guide
